LET'S ENGINEER YOUR FUTURE

Kennesaw State University's **MS in Engineering Management** prepares you for a successful career in the engineering industry.

You'll learn to manage projects, optimize processes, lead teams, and integrate engineering with business strategies. You'll study advanced knowledge in engineering statistics, quality systems, Six Sigma, database and information systems engineering, project management, engineering communications, and leadership.

This program equips you with the skills to lead and succeed in complex engineering projects.

Program Format:

Online

Number of Credit Hours:

30 Total Hours
(12-18 Month Program)

Entry Terms:

Fall, Spring, Summer

Application Deadlines:

Fall, July 1
Spring, November 1
Summer, April 1

WHY CHOOSE KSU?

Flexible, Online Courses

With full-time and part-time options, you can complete this degree at your own pace.

More Affordable Than Competitors

KSU's program can be completed in one year and at a substantially lower cost.

Additional Certification

Graduate certificates can be earned as part of coursework degree.

No GRE or Related Experience Required

Applicants without related experience will be considered.

STUDENT TESTIMONIAL

Derek Poston

Current MSEM Student

"I've always had a vision of being the manager I always wanted to have. I'm also a full-time engineer with a wife in nursing school, so I needed a program that was flexible and had great value for the cost. I looked at several programs, but the program at Kennesaw, with the 1-year timeline and seven-week semesters, stood out."

CAREER PATHWAYS

With a **Master of Science in Engineering Management** from KSU, you can pursue diverse career pathways such as Engineering Manager, Project Manager, Operations Manager, Quality Manager, and roles in Systems Engineering. Graduates can also excel in Product Development, Process Improvement, and Technical Consulting.
